PREFACE

(Furnished by Chamber of Commerce.)

Population U. S. Census, 1917, 29,892.

The natural gateway of North and South Carolina, intermediate between the whole territory and Richmond.

Handles one-fifth of the cotton crop of the two States. Total interior business financed in Wilmington, \$50,000,000.

Nearest Atlantic port to the Ohio gateways. Nearer Cincinnati than Charleston by 15 miles and Savannah by 30 miles.

Eighteen passenger trains enter and leave Wilmington daily. Average 71½ hours from principal cities in North and South Carolina.

Wilmington is the fourth largest cotton-exporting port in the world, and ranks fourteenth in the United States in the value of domestic exports. The ideal climatic conditions makes this city especially attractive for summer and winter tourists.

Wilmington is the leading banking center of the State, in capital, deposits and resources and the clearing point for a large number of banks in North and South Carolina. The banking resources of Wilmington are \$17,561,171.84.

Wilmington, North Carolina, a city of 35,000 population, is well-known for its large commercial interests and as one of the leading South Atlantic seaports. Wilmington is also recognized as the "Gateway" for the Carolinas, due to her importance as the distributing center and for her large exports of cotton, handling one-fifth of the 2,500,000 bales produced in the two States. Her advantageous location, connection with six separate railroad routes, and with boat service to New York contribute largely to her success as a commercial city, doing an annual wholesale business of \$70,000,000.

The increase in Wilmington's banking business since 1910 gives a good indication of the substantial growth of the city, as follows: In banking capital and surplus from \$1,922,716.10 to \$2,687,753.35; in banking deposits from \$9,292,085.89 to \$18,673,521.60.

The proof of the growth of a seaport is its increase in imports and exports. The imports have increased 239 per cent. since 1909, and exports 26 per cent. The total value of both in 1914 was over \$30,000,000.

Wilmington is North Carolina's seaport city, the gateway of her commerce and trade. North Carolina is a vast State in area, larger than New York or Pennsylvania, and almost as large as New England. Wilmington is the natural distributing point for North Carolina and parts of South Carolina and Georgia. Think what it would mean if all of New England had only one such distributing seaport, and it will then be realized why Wilmington must grow and

is growing to meet the demands of this vast territory whose bountiful natural resources have hardly been touched.

From the Middle West the Panama Canal will be in more direct communication via Wilmington than by any other South Atlantic seaport, and cargoes to and from Wilmington will not be subject to the dangers of Cape Hatteras.

Wilmington is the centre of the greatest vegetable producing district in the United States. A few years ago no strawberries were raised except for domestic use; now WILMINGTON IS THE LARGEST STRAWBERRY RAISING DISTRICT IN THE WORLD. It is the LARGEST LETTUCE PRODUCING DISTRICT IN THE WORLD, and next to the largest peanut market.

Our "Back Country" strength: There are within fifty miles of Wilmington over 1,000,000 acres of idle land having the finest grade of soil type found in the Atlantic Coastal plain. In addition, there are available large areas of land of somewhat less valuable soil types but which are also highly suitable for agricultural uses. On the fine sandy loam with clay subsoil, a farm population of a half million could easily be supported, and an urban population of a quarter of a million in cities and towns.

Wilmington is within ten miles by trolley of Wrightsville Beach, the most attractive seaside resort on the South Atlantic Coast.

Wilmington has factories, oil mills, cotton mills, lumber mills, machine shops, cotton compresses and many miscellaneous industries. This city is an excellent location for woodworking industries, largely due to cheap raw material, and both rail and water transportation.

Many new people have come to our section, bringing with them valuable ideas and new methods. This is the kind of people we want, and this is the kind to whom our unexcelled and unexploited resources will bring prosperity and wealth.

Wilmington is located at the head of the Cape Fear ocean gateway, with 400 miles of inland navigation and six railroads extending in all directions, making this port one of the most desirable distributing points on the South Atlantic Coast.

Wilmington outlets by rail and water are the Atlantic Coast Line and Seaboard Air Line systems; Wilmington, Brunswick and Southern Railway; the Clyde Steamship Line to New York and Baltimore.

Wilmington has a wonderful climate; no extreme heat or extreme cold. Average summer temperature, 78 degrees; average winter temperature, 48 degrees. The normal rainfall is 51.05 inches; average annual clear days, 132; (New York, rainfall 44 inches; clear days, 118; New Orleans, rainfall, 57 inches, clear days, 109). The mild climate and diversified opportunities makes this city and section a haven for homeseekers.

Wilmington has a payroll of \$5,000,000.00 distributed among over 5,000 employees. The economic, educational and social advantages of Wilmington afford anything and everything that the individual can ask in the way of profit and pleasure.

Wilmington offers free sites with both water and rail advantages

245342

to worthy manufacturers. This unusual opportunity in the interest of industrial development carries with it very liberal consideration.

Wilmington is the proud possessor of handsome homes, beautiful boulevards, recreation centers, golf links and abounds in historic interest and beauty.

The Wilmington district is one of the greatest trucking regions in the United States and the yield from this early crop reaches the sum of \$3,000,000.00 annually.

The city government is committed to business men. The health of the community is guarded by a department, proven by its records as one of the most efficient in the United States. The local public service corporations are progressive and administer admirably to the requirements of the public.

Statements that are not Questioned.

The City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers Guide on earth. A modern up to date method of getting what you want. Polk.

Beware

Of the fake directory man, he will get you sure if you have any dealings with him. Thousands of dollars are being collected by swindlers and nothing given in return. Unless you know the Directory people with whom you are dealing, refuse to sign any contracts or paid vouchers. If you are in doubt communicate with us.

City Directory Don'ts

DON'T put your Directory in an out of the way place, but keep it in a place that your customers can see and use it without stopping some ONE to find it.

DON'T think that a Directory is paying for itself unless you use it more than an idle clerk can make you money.

DON'T look mad when a customer asks to look at your Directory.

DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow again and if all were borrowers, when would the next Directory be published?

DON'T forget that an up-to-date city must have a Directory and a merchant that has no DIRECTORY is what?

DON'T forget that a Directory borrower to-day will forget to return it to-morrow and you call him what?

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for. What do you call him?

When a man advertises his business it is conclusive that he is not ashamed of it, especially if he does his advertising in the Wilmington City Directory.

City Directory Don'ts

DON'T put your Directory in an out of the way place, but keep it in a place that your customers can see and use it without stopping some ONE to find it.

DON'T think that a Directory is paying for itself unless you use it more than an idle clerk can make you money.

DON'T look mad when a customer asks to look at your Directory.

DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow again and if all were borrowers, when would the next Directory be published?

DON'T forget that an up-to-date city must have a Directory and a merchant that has no **DIRECTORY** is what?

DON'T forget that a Directory borrower to-day will forget to return it to-morrow and you call him what?

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for. What do you call him?

When a man advertises his business it is conclusive that he is not ashamed of it, especially if he does his advertising in the Wilmington City Directory.
